The companies on this list have considerable experience working with the Environmental Health Unit.

However, a number of plumbers and other companies install water treatment equipment and do a good job. Other plumbers and companies may not be as familiar with Chautauqua County Environmental Health Unit standards for disinfection systems so please use the website referenced below, or contact our office at 753-4481, for information relating to the required standards.

**NOTE:** If you are installing disinfection required by Chautauqua County Environmental Health Unit please make sure you have the corresponding standards forms. The forms are available on the Chautauqua County website under the “Disinfection” section and must be completed and submitted to our office.
